

# Oussella loop

Embrunais - Réallon

Sentier de l'Oussella (Mireille Coulon © Parc national des Ecrins)

*A pleasant family hike on a loop with a beautiful view over the Réallon valley.*

The climb begins in the cool of a beech wood, then a beautiful larch forest, before arriving at old hay meadows, testimony to past activities. The ruins of old mountain chalets are a reminder of life in days gone by in the mountains. When the path passes over a balcony, the landscape opens up to offer a wide view of the Réallon valley.

## **Useful information**

## Practice : By walk

Duration : 3 h

Length : 6.6 km

Trek ascent : 417 m

Difficulty : Easy

Type : Loop

Themes : Fauna, Flora, History and architecture

# Trek

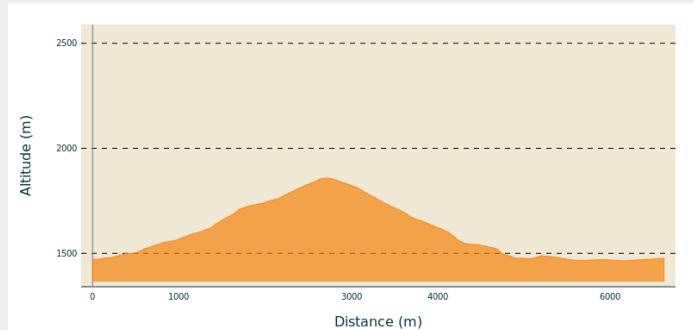

**Departure :** Parking des Gourniers,  
Réallon

**Arrival :** Parking des Gourniers, Réallon

**Markings :** — PR ■ GR

**Cities :** 1. Réallon

## Altimetric profile

Min elevation 1466 m Max elevation 1859 m

From the car park, cross the bridge, and at the crossroads in the hamlet head up the road towards Chargès as far as the last house.

1. Take the path on the right towards Oussella
2. After the Marmite de Géant and the bridge, continue left towards l' Oussella. Cross the waterfall stream and keep to the main path through the beech forest. After a few hairpin bends, at the end of the larch grove, cross the old hay meadows and a stream. Cross the ravine and the stream of La Pissarotte to reach the foot of another area of old meadows that you need to ascend (cairns and arrow).
3. Turn right and go as far as the crossroads (post), which is the end of the ascent and a viewpoint. Follow Les Gourniers via Le Villard. Pass the old alpine chalets and Fouents (viewpoint) and descend towards Le Villard. Head along the edge of the ravine to the post (right arrow). After the series of hairpin bends, turn right in the field before the drinking troughs, then left 50 metres further down (small arrow post). Head alongside the “rock hutch” and continue along small hairpins (cairns). Cross the coombe and join the Sentier du Fort.
4. Take the path on the right towards Les Gourniers.
5. When you reach the track, follow Les Gourniers to the right (red and white GR markings).
6. At the top of a rise, leave the track by continuing straight ahead (post with arrow). Stay on the GR until you reach the road back to the car park.

# On your path...

# All useful information

## Herd protection dogs

In mountain pastures, protection dogs are there to protect the herds from predators (wolves, etc.).

When I hike I adapt my behavior by going around the herd and pausing for the dog to identify me.

Find out more about the actions to adopt with the article ["Protection dogs: a context and actions to adopt"](#).

Tell us about your meeting by answering this [survey](#).

## Advices

Afin d'éviter les conflits d'usage, les chiens de compagnie sont interdits sur l'alpage traversé du 15 juin au 15 septembre par arrêté municipal.

De juin à octobre, possible présence d'un troupeau accompagné de chiens de protection.

Mieux comprendre le rôle des chiens de protection et connaître les bons comportements à adopter en cas de rencontre : [en vidéo!](#)

## How to come ?

### Transports

Consider carpooling: <https://www.blablacar.fr/>

### Access

From Savines-Le-Lac (17 km), take the D41 to Réallon. Follow the D241 to the hamlet of Les Gourniers at the bottom of the valley.

### Advised parking

Parking des Gourniers, Réallon

# Environmental sensitive areas

Along your trek, you will go through sensitive areas related to the presence of a specific species or environment. In these areas, an appropriate behaviour allows to contribute to their preservation. For detailed information, specific forms are accessible for each area.

## Golden eagle

Sensitivity period: January, February, March, April, May, June, July, August

Nidification de l'Aigle royal

Les pratiques qui peuvent avoir une interaction avec l'Aigle royal en période de nidification sont principalement le vol libre et les pratiques verticales ou en falaise, comme l'escalade ou l'alpinisme. Merci d'éviter cette zone et de privilégier un survol de la zone à une distance de survol de 300m sol soit à une altitude minimale de 2400m.
