

From Gap Bayard to Le Domaine

Champsaur - Gap

Vue sur le Chapeau de Napoléon (- © Parc national des Ecrins - CDTE05)

The first stage of this two-day tour takes you to the heights of the Col de Gleize and rewards you with a unique view over the Gap basin, then on to the state-owned forest of Bois Vert before following the banks of the Drac as far as Le Domaine.

As you wind uphill, you are offered scenic views of the Gap basin and the surrounding peaks. Then, you enter the forest in which there are occasional gaps offering glimpses of the Champsaur area criss-crossed by trees and hedgerows or Le Vieux Chaillol. Further on, at Notre-Dame de Bois-Vert, a more cultural break awaits although the panoramic view is no less remarkable. The stage ends by following the banks of the Drac, enjoying its freshness and the serenity it imparts.

Useful information

Practice : Horse

Duration : 6 h 30

Length : 25.8 km

Trek ascent : 736 m

Difficulty : Medium

Type : Stage

Trek

Departure : Gap Bayard

Arrival : Le Domaine

Markings :  Piste équestre

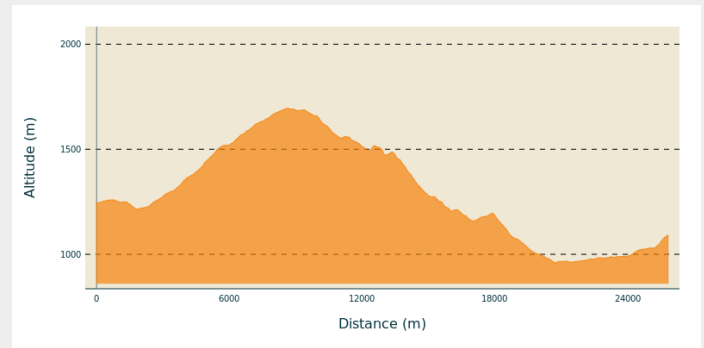

Cities : 1. Gap

2. Laye

3. La Fare-en-Champsaur

4. Saint-Bonnet-en-Champsaur

Altimetric profile

Min elevation 961 m Max elevation 1696 m

From the start car park, head south through the woods along the N85.

1. Leave the sports trail and head down towards and cross the N85. Follow the road southwards for 100m.
2. Take the 1st right onto the Route de la Mémoire. Take the 1st turning on the right.
Branch off towards Les Sérigues and Les Brunets on a road/trail that winds upwards. Enjoy the view of the Gapençais basin, the tête de Clappe, the Chapeau de Napoléon, the puy de Manse, the Piolit, the Aiguilles de Chabrière, the Saint-Mens hill, the Avance with Mont Colombis and the peaks of the Ecrins massif.
3. Go past the Brunets junction and turn right onto the Brunets forest road (PR, D54 track).
> This is a possible stopover at 'Une Cabane pour Deux', with no detours. Leave the PR route temporarily to avoid the guard dogs and join another PR route to the Col de Gleize, located between the Courmian and Gleize peaks.
4. Take the wide, flat, grassy PR trail to the right of the Folletière hut towards Notre-Dame de Bois-Vert. Walk under the Gleize peak and the Aiguille peak. The track joins the Lauzon forest road after a sharp bend and continues through the larch forest.
At Clot du Lauzon, continue on this pleasant main track towards Lauzon and the Laye resort, where the view of the Bayard plateau and the Champsaurin bocage is breathtaking.
At Le Lauzon, continue towards the resort of Laye. As you cross the ski slopes, enjoy the view of Vieux-Chaillol opposite.
> Possible access for a stopover at Maison l'Aiguille, see end of description. Continue towards the coulée des Adroits and head towards La Cuque.
5. At the lookout point at La Cuque, an ONF sign provides information on the area's geography, hydrology, relief, climate and vegetation. Admire the panorama of the typical Champsaur hedgerows.
Continue in the direction of the Clot des Fascines along the charming La Cuque path through the undergrowth.
At Le Devès, an ONF sign explains the biodiversity of the forest.

Pass through Le Devès, Sagnassou, les Croussières, les Selliers and les Farelles, where the Régina breeding farm offers endurance Arab thoroughbreds.

6. Before leaving the hamlet of Les Farelles, take the track on the left, through undergrowth and closed to motorised vehicles, which leads to Notre-Dame de Bois Vert. Here, the chapel, cemetery, statues, bell tower with exhibition canopy, oratory, cenotaph, fountains, tables and benches, grass and shade invite you to take a cultural break and/or enjoy a picnic.
7. At Notre-Dame de Bois-Vert, take the grassy path on the right, between the small cemetery and the large cross. Once you reach the road, continue down the Chemin de Bois-Vert, cutting the twists and turns in the road by the tracks alongside the farms, whose tiled roofs you can admire.
At Sous la Fare, when you reach the road, continue straight on and cross the torrent de la Fare towards Poligny.
At Les Martins, continue along the Route du Chatelard, then take the first grassy track on the right. This track leads to a housing estate (chemin de la Casse): continue straight on to Les Allards.
8. Turn right onto the route des Allards towards Les Baraques. Before the large roundabout, fork left towards the small car park and fountain and cross the N85 to continue along Rue du Pont. At the end of the road, turn left onto the bridge over the Drac.
9. At the end of the bridge, take the first road on the right towards Carrefour Market. Continue straight on, passing the veterinary clinic and taking the bridge over the Riou Maffren. Then walk along the Drac on the flat, comfortable path that starts to the right of the water treatment plant building.
10. Before reaching the Champsaur lake, a path hidden by an embankment climbs up through the grass to the left, alongside the meadows. It becomes a track (chemin de Dabou) and, continuing straight ahead, leads to the D945 (fast-moving traffic): turn right along the road, then cross over and climb the route de Coste Joffre towards the Marie Philip holiday centre: a stopover for the night.

All useful information

How to come ?

Advised parking

Gap Bayard car park (golf course, petrol station, oxygenation centre)

Environmental sensitive areas

Along your trek, you will go through sensitive areas related to the presence of a specific species or environment. In these areas, an appropriate behaviour allows to contribute to their preservation. For detailed information, specific forms are accessible for each area.

Golden eagle

Sensitivity period: January, February, March, April, May, June, July, August

Contact: Parc National des Écrins
Julien Charron
julien.charron@ecrins-parcnational.fr

Nidification de l'Aigle royal

Les pratiques qui peuvent avoir une interaction avec l'Aigle royal en période de nidification sont principalement le vol libre et les pratiques verticales ou en falaise, comme l'escalade ou l'alpinisme. Merci d'éviter cette zone et de privilégier un survol de la zone à une distance de survol de 300m sol soit à une altitude minimale de 2100m.

Peregrine falcon

Sensitivity period: February, March, April, May, June

Contact: Parc National des Écrins
Julien Charron
julien.charron@ecrins-parcnational.fr

Nidification du Faucon pèlerin.

Les pratiques qui peuvent avoir une interaction avec le Faucon pèlerin en période de nidification sont principalement le vol libre et les pratiques verticales ou en falaise, comme l'escalade ou l'alpinisme. Merci d'éviter cette zone !

En cas de survol merci de rester au-dessus de 2080m d'altitude à une distance de 300m sol.

ONF (A)

The work of the Office National des Forêts (National Forestry Office) is not limited to the forests. After buying a large amount of land following the rural exodus (public land), the state delegated to the Water and Forestry agency the difficult task of preserving the natural heritage of a large number of areas (restoration of land and building, maintenance of paths, etc.)
