

# The chalets of Vaucluse

Embrunais - Réallon

Trail Réallon (Kina Photo)

*Following moderately technical trails, this route leads through impressive larch forests beneath the Aiguilles de Chabrières.*

Below the Aiguilles de Chabrières, this route takes in some superb forest trails. Halfway along the route, the chalets of the hamlet of Vaucluse and further on the Font Renarde hut come into view as you approach the clearings on the northern slopes of the Réallon valley.

## ✿ Pasque flower (A)

If all pasque flowers are identifiable by their thick but soft hairiness, unlike anemones, when they reach maturity they also have a characteristic head of scruffy hair, made up of numerous fluffy white seed heads that will get blown away by the wind. In this family, the pasque flower is the most glamorous and most beautiful. It has the advantage of flowering in spring and displays a remarkable purple-black corolla among the grass that has been faded by the winter.
