

From Rochebrune to Montgardin

Montgardin

(CDTE Hautes-Alpes)

Both a pilgrimage site and geological curiosity, this route takes in some very pleasant farmland and woodland at the foot of Mont Colombis (1734m).

A varied route that follows the Durance, Avance and Luye rivers. Alternating between orchards, undergrowth paths and forest tracks, this route is a chance to discover the Val d'avance as you've never seen it before!

Herd protection dogs

In mountain pastures, protection dogs are there to protect the herds from predators (wolves, etc.).

When I hike I adapt my behavior by going around the herd and pausing for the dog to identify me.

3 lacs leisure centre (A)

A series of small lakes bordering the Durance: dogs not allowed, swimming not allowed for pets, camping and caravanning not allowed.

Moyenne Durance State Forest (B)

Between the Durance, Avance and Luye rivers and the Lac de Serre-Ponçon, this forest encompasses hills and demoiselles coiffées. The site is home to a host of different plant species, birds and butterflies.

The chapel of Les Fours (C)

Fours (kilns) refer to holes in which gypsum was cooked to make plaster.

At the end of a path of the cross, the chapel was built on the site of the appearance of the Virgin Mary to the shepherdess Benoîte Rencurel in 1664.
