

Les Antics le Truchet

Charges

(Serre-Ponçon)

A fairly strenuous route requiring a basic level of fitness, but offering exceptional panoramic views of the Val d'Avance, Piolit and the Aiguilles de Chabrières.

After a few hundred metres of ascent and passing the hamlet of Naune Raze, you'll find yourself in the alpine zone.

Look up and you may catch a glimpse of buzzards, falcons and other birds of prey. You will cross streams created by melting snow (which can dry up depending on the season).

Herd protection dogs

In mountain pastures, protection dogs are there to protect the herds from predators (wolves, etc.).

When I hike I adapt my behavior by going around the herd and pausing for the dog to identify me.
